

To everyone enjoying boat fishing in Toyama Bay

WARNING

It's Prohibited !

**Do not fish while connected to
fixed net fishing gear.**

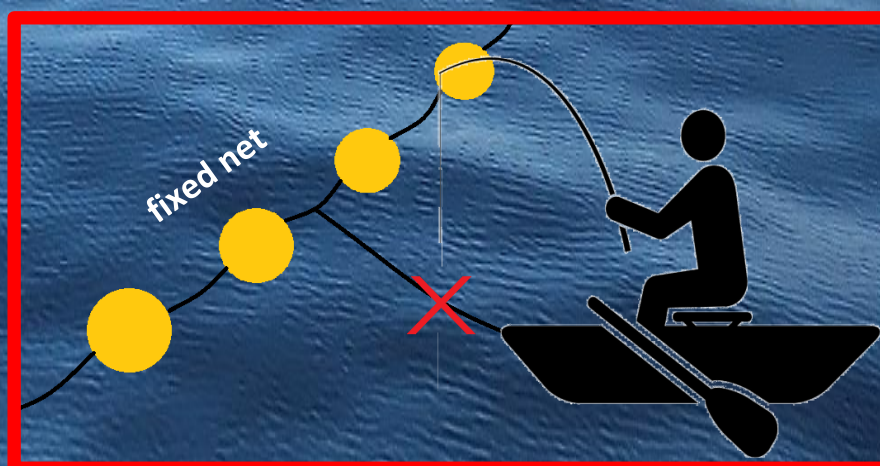

**Recreational fishing with a pole that has a connection to
fixed net fishing gear has been prohibited as of April 2025.**

Directive from the Toyama Sea Area Fisheries Adjustment Committee

In the coastal waters of Toyama Prefecture, it is prohibited to engage in recreational fishing activities that involve contact with fixed fishing gear used for set-net fishing (such as stake nets, body nets, ropes, buoys, and other installed equipment), including actions like mooring boats while connected to fixed nets or capturing aquatic organisms while in contact with these fishing tools.

Isn't it a violation if it's not connected to a fixed net?

Interfering with fishing
activities may be considered
a violation of fishing rights.

"Let's enjoy fishing by respecting the rules and practicing good manners."
